Frequently asked questions

Do I need a cloud subscription?

No. Insert a microSD card (up to 512GB, sold separately) and the camera records locally. Cloud storage is optional.

Does it work without internet?

It records to the card without internet, but you need a connection to view the feed remotely or receive alerts.

Can it be used outdoors?

This model is designed for indoor use. For outdoors choose the H3c, which is weather rated.
