Warranty

- 12 month manufacturer warranty.

Frequently asked questions

Which SIM cards work?

Any standard Bangladeshi data SIM — Grameenphone, Robi, Banglalink or Teletalk. A data-only package is the cheapest option.

How much data does it use?

Recording locally with alert notifications only, a few hundred megabytes a month. Continuous remote viewing will use several gigabytes.

Is it weatherproof?

This model is intended for sheltered installation. Mount it under cover.
