HAIER

Haier CleanCool Inverter AC — Installation and User Manual

Haier 1.1 Ton CleanCool Inverter Air Conditioner [HSU-13CleanCool:(INV)(Pro)(X6)]

In the box

- Indoor unit, outdoor unit, remote control, mounting plate, connecting pipe set, installation manual.

Key features

- DC inverter compressor — up to 60% less power than a fixed-speed unit
- Self-cleaning evaporator that flushes dust and prevents mould
- 1.1 ton capacity, sized for a 140–160 sq ft room
- Turbo cooling mode for the first few minutes
- Quiet night mode with a dimmed display

Warranty

- 1 year comprehensive on the unit, 5 years on the inverter compressor, and 3 years free servicing through Haier Bangladesh.

Frequently asked questions

What room size does 1.1 ton cover?

Comfortably 140–160 square feet in Bangladeshi conditions. For a larger or west-facing room, step up to 1.5 ton.

Is installation included in the price?

Installation is arranged through Haier's service network. Piping beyond the standard length and any civil work are charged separately.

How long is the compressor warranty?

Five years on the inverter compressor, one year comprehensive on the rest of the unit, plus three years of free servicing.
