HAIER

Haier AquaCool AC — Installation and User Manual

Haier 1 Ton Aquacool Non Inverter Air Conditioner [HSU-12TurboAqua(FIX)(Pro)]

In the box

- Indoor unit, outdoor unit, remote control, mounting plate, connecting pipe set, manual.

Key features

- Turbo cooling for a fast pull-down after a hot day
- AquaCool anti-corrosion coating for coastal and humid air
- 1 ton capacity for rooms up to 130 sq ft
- Lower purchase price than an equivalent inverter unit
- Simple, robust fixed-speed compressor

Warranty

- 1 year comprehensive, 5 years on the compressor, 3 years free servicing through Haier Bangladesh.

Frequently asked questions

Should I buy inverter or non-inverter?

If the AC will run more than four hours a day, choose inverter — it repays the difference. For occasional use, this fixed-speed unit is the better value.

What does the AquaCool coating do?

It protects the outdoor coil against salt and humidity corrosion, which extends life noticeably near the coast.
