- 30 hours of wireless playback
- Lightweight, fully adjustable and foldable
- Post-consumer recycled plastics
- Stickers included for personalisation

Warranty

- 12 month manufacturer warranty.

Frequently asked questions

Can my child turn the volume above the limit?

No. The 85dB cap is enforced inside the headphone itself, so it applies no matter what device is connected or what the device volume is set to.

Does it work wired if the battery dies?

Yes, there is a 3.5mm input so it keeps working as a passive headphone.

What age is it suitable for?

JBL rates it from age 3 upward. The headband adjusts down far enough for small heads.
