- Nationwide Symphony service centres — the practical advantage of a local brand

Warranty

- 12 month manufacturer warranty.

Frequently asked questions

Where can I claim warranty for this phone?

At any Symphony service point nationwide. Keep the warranty card that ships in the box and your ACI invoice.

Does it support a memory card?

Yes, alongside both SIM slots. With 128GB onboard most buyers will not need one.

Is the 8GB RAM physical?

4GB is physical, extended to 8GB using storage as virtual RAM. In everyday use it keeps more apps resident in the background.
